Volume Move Wizard

Destination Aggregate

Select the destination to move the selected volume non-disruptively. Following list shows all the aggregates that have enough space to accommodate the volume.

Name	Available Space	RAID Type	Storage Type
aggr2	2.73 GB	raid4, nor...	FCAL
aggr3	1.76 GB	raid4, nor...	FCAL

Details

Destination Aggregate:

aggr3

Total committed space for the selected volume:

100 MB

Available space in destination aggregate before move:

1.76 GB

Available space in destination aggregate after move:

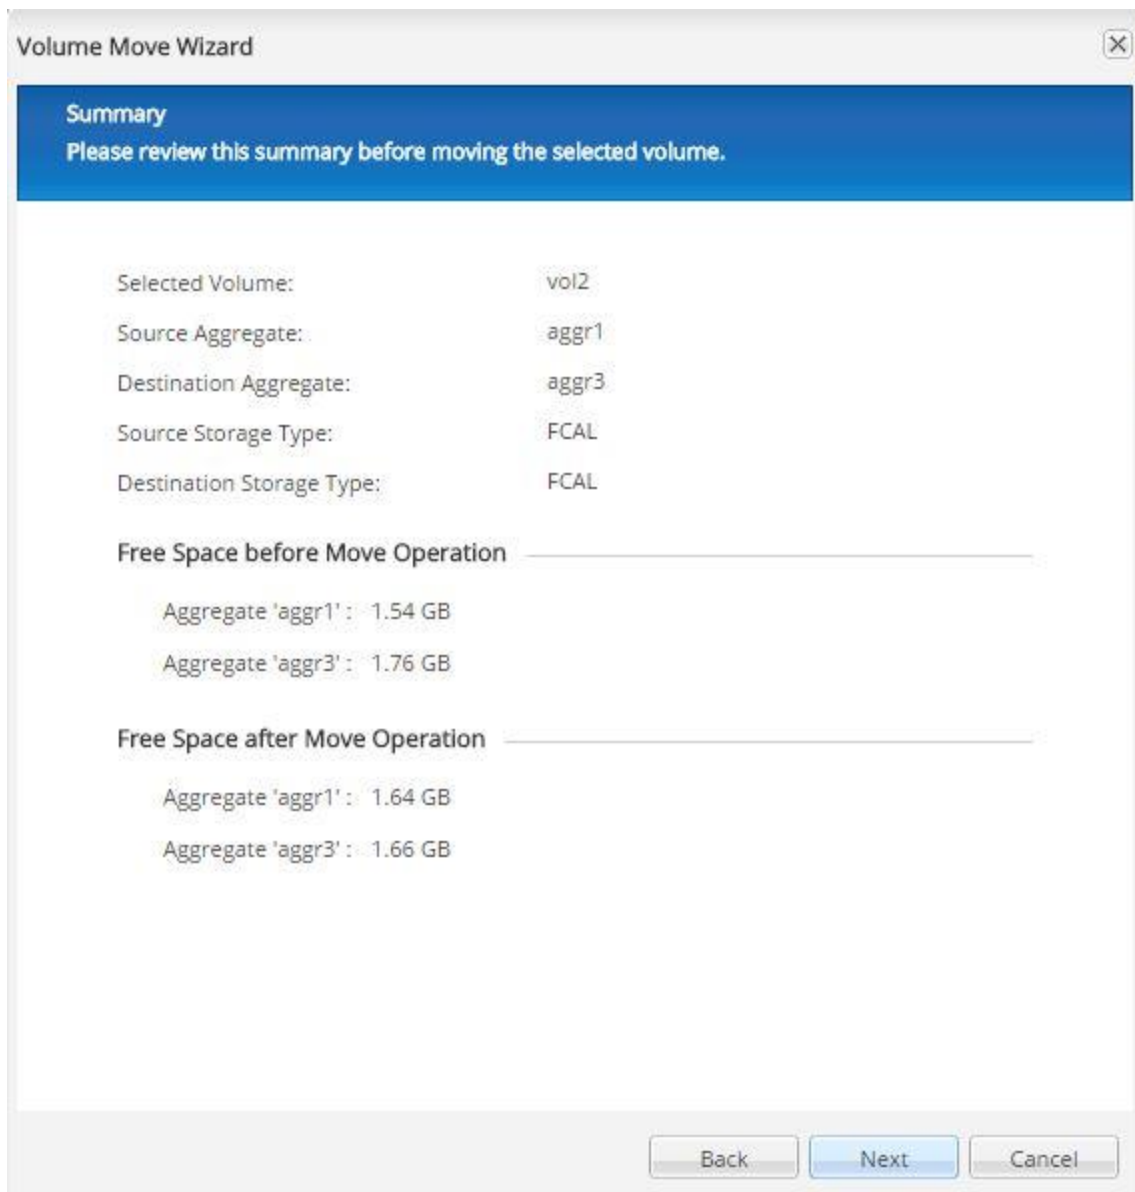

1.66 GB

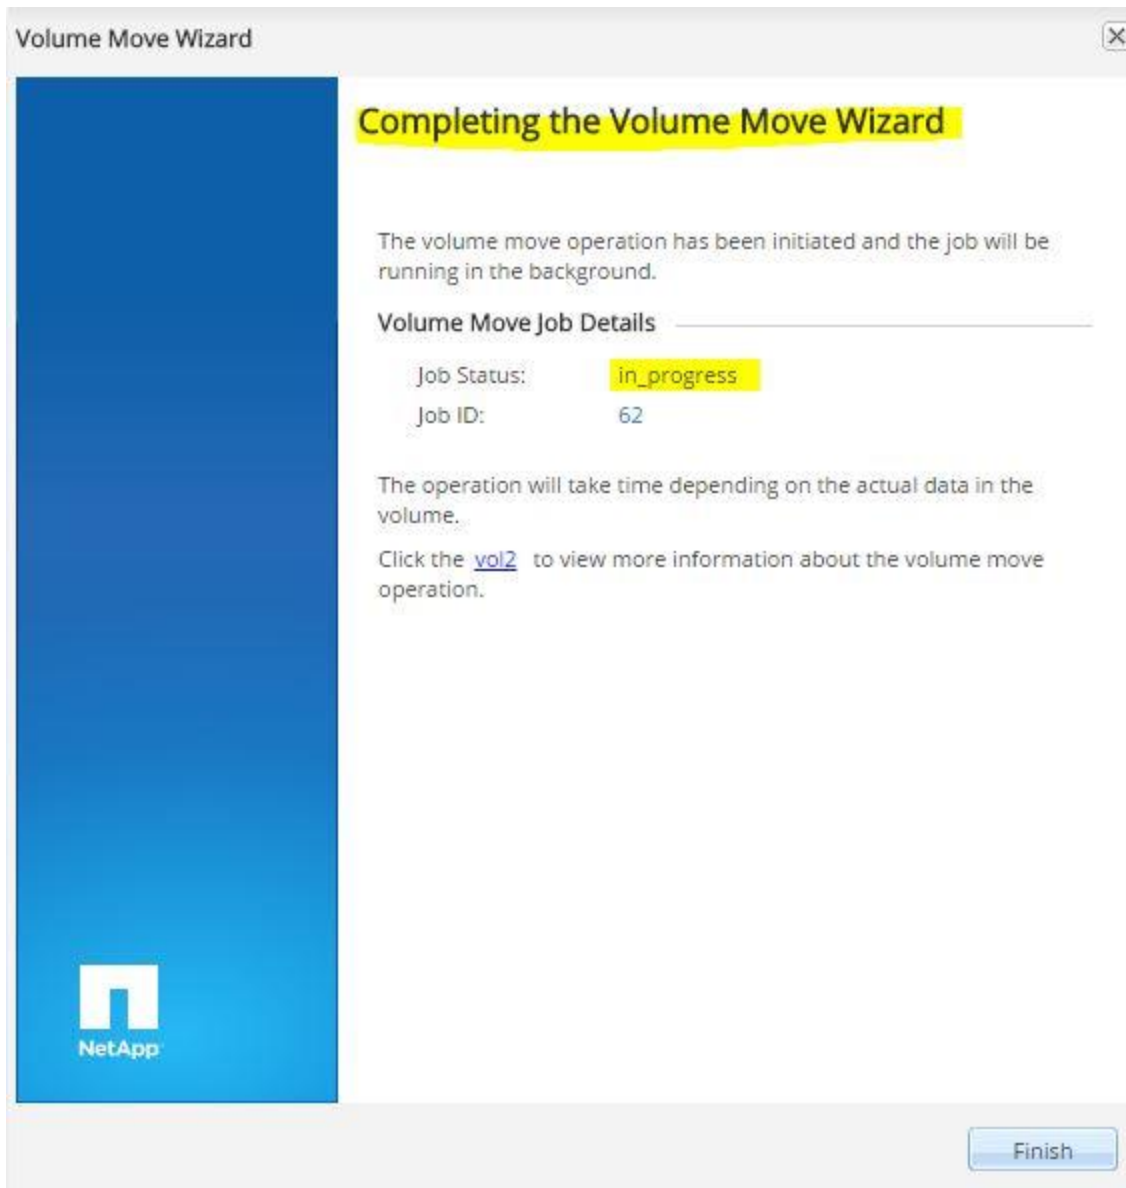

Know more about the changes in volume settings on the destination aggregate.
